

Progress Reports are graded on the (i) write-up of what has been accomplished and (ii) the amount of said progress on the overall project.

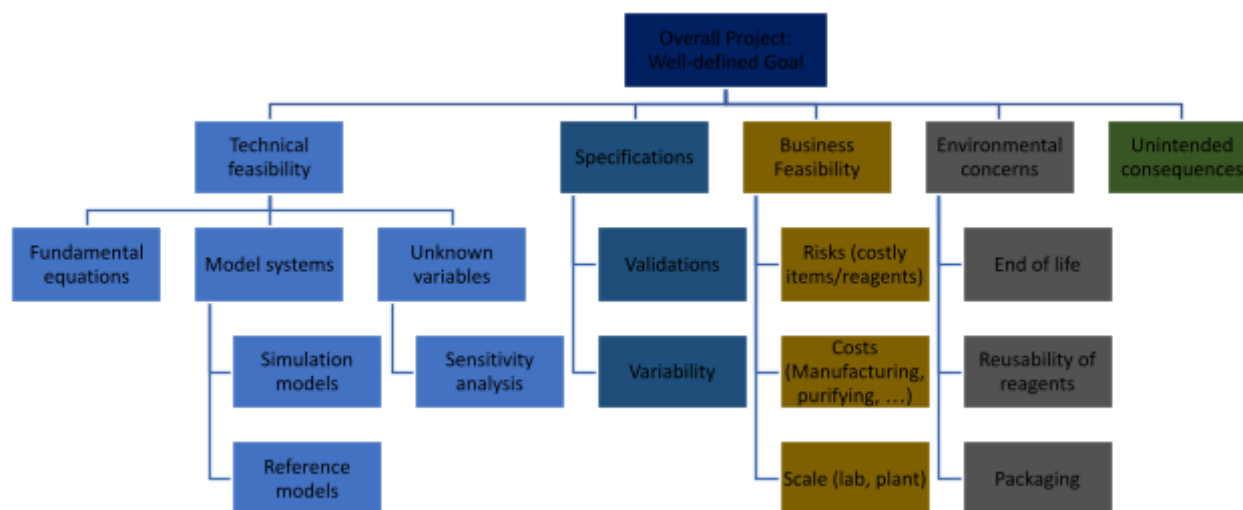

1. Group Number and Title: Group 11 – Sustainable Polymers

2. Week 13/16 and Date: 4/25/2025

Understand	Synthesize	Ideate	Prototype	Implement
Explore	Debrief	Brainstorm	Create	Support
Observe	Organize	Propose	Engage	Sustain
Empathize	Define	Plan	Evaluate	Evolve
Reflect	Interpret	Narrow Concepts	Iterate	Execute

3. Provide a brief list of activities that were done and their corresponding HCD space(s) and subspace(s) (add rows if necessary):

Activity	HCD space(s)	HCD subspace(s)
Cleaned lab space	Implement	Support (?)
Worked on tasks for final portfolio	Implement	Execute

4. What branches/blocks were work focused on this week?

N/A

5. What was accomplished? (4-5 bullet points, include data/charts if applicable)

- Cleaned up lab space and compiled all materials used.
 - Worked on the assigned tasks for the final portfolio.
6. What challenges are still outstanding? (2-5 bullet points)
- Fleshing out and conducting more research on environmental concerns, business feasibility and unintended consequences for final portfolio
 - Finishing the lean canvas document
7. As you engaged in human-centered engineering design activities this week, do you think you became curious about any new content? If yes, how?

Yes, we have become curious about industrial fabric production and whether our blend could be scaled up.

8. As you engaged in human-centered engineering design activities this week, do you think you made any new connections (e.g. connections between ideas, connections between people, etc.)? If yes, how?

We made connections with each other as we reach the adjourning stage of our group project.

9. As you engaged in human-centered engineering design activities this week, do you think you created any value (e.g. identified a way to work together more efficiently, found a way to improve your idea or design, etc.)? If yes, how?

We created value by documenting our leftover materials and contacting facilities and the building manager so that they can effectively use our supplies for future purposes.

10. What feedback did you obtain from the instructor or TA last week that you addressed in your work this week?

There are no more TA meetings.
